

**CONSOLIDATED AERONAUTICS
CORPORATION**

(AND ITS WHOLLY OWNED SUBSIDIARY)

CONSOLIDATED AERO-EXPORT CORP.

**7360 LAUREL CANYON BOULEVARD
NORTH HOLLYWOOD, CALIFORNIA 91605**

OVERHAUL AND TEST FACILITIES for landing gear, wheels, brakes, hydraulic and electro-mechanical accessories—an integral section of our FAA licensed facility.

MAIN WAREHOUSE for storage and handling of forgings, castings and long lead time metals and special materials for production of replacement spare parts and assemblies.

MANAGEMENT AUTOMATED DATA CENTER:

This is our computer based information processing center. We have designed the program management to provide problem free computer power for our operating personnel. The heart of this system is a DEC VAX 11/750 Computer. We have made a commitment to attain the "office of the future" and maintain our competitive position in the marketplace.

SHEET METAL DEPARTMENT: Equipped for repair, overhaul and production of control surfaces, fuel tanks, canopies, doors, fairings, seats and light metal structures. Equipment: power shears, spotwelders, power brakes, hydropress, drill press, rivet machines.

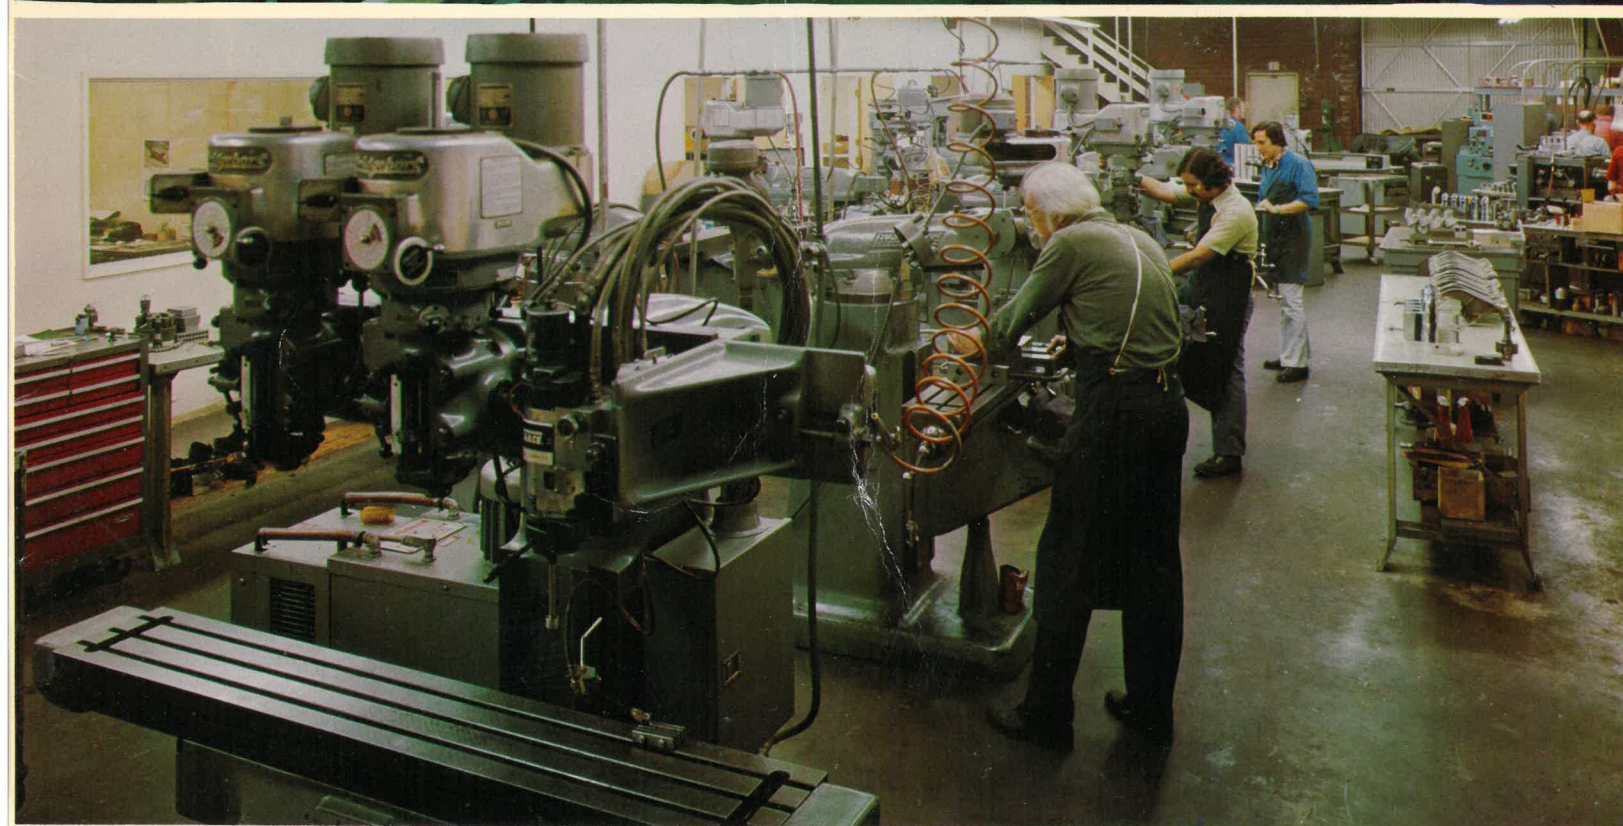

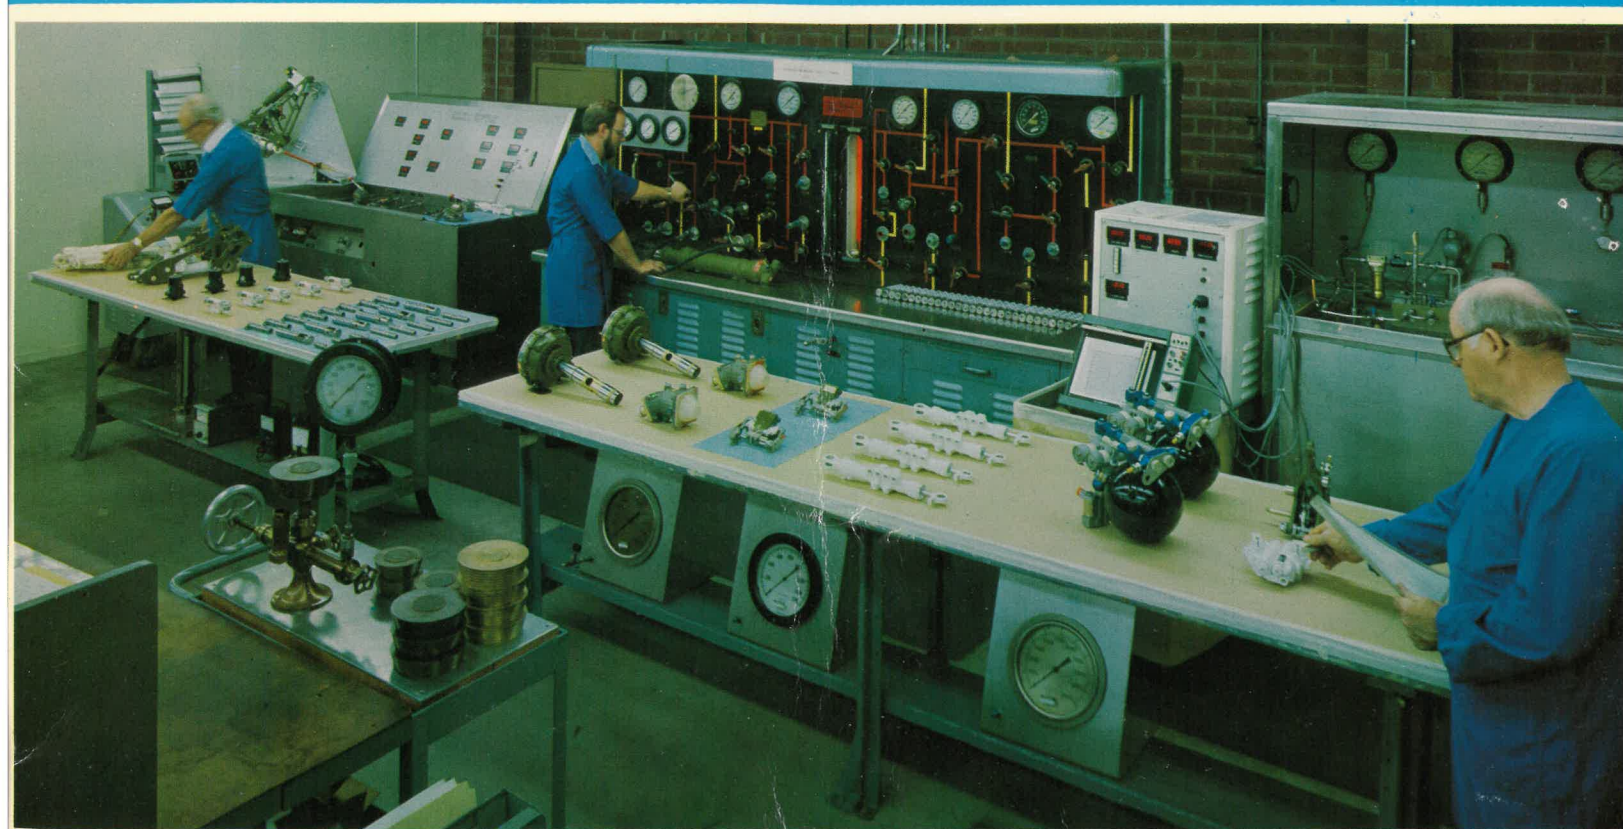

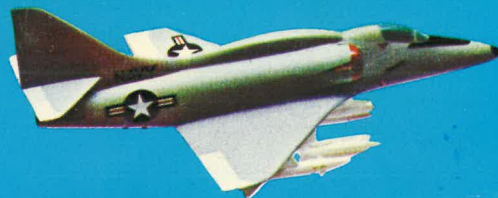

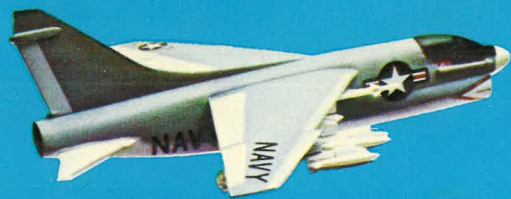

QUALITY ASSURANCE DEPARTMENT: Quality control system approved by U.S. Government MIL-I-45208A and major prime aircraft manufacturers.

WAREHOUSES: One of several 25,000 sq. ft. warehouse buildings providing secure weatherproof facilities for cataloging and storage of finished parts and equipment.

HYDRAULIC ASSEMBLY AND TEST DEPARTMENT: Multiple test benches with digital electronic instrumentation. 6000 psi range capability, calibrated and certified in accordance with U.S. government and prime manufacturers specifications. Equipment approved for testing of: electro-mechanical servos, flow metering devices, cylinders, actuators and pumps.

MACHINE SHOP: Manned by experienced aviation machinists. Equipment: Bridgeport, vertical mills • Bridgeport, profile machines • engine lathes • chucker lathes • Cincinnati horizontal mills • Sweda horizontal mills • Jaws • grinders.

CONSOLIDATED AERONAUTICS CORP.

CONSOLIDATED AERO-EXPORT CORP. (A WHOLLY OWNED SUBSIDIARY)

SPARE PARTS DIVISION

Within our 200,000 square foot warehouse facilities* we maintain a stock of support spare parts applicable to the following aircraft and equipment:

100% MILITARY	McDonnell-Douglas	A-4	Lockheed	F-104
	McDonnell-Douglas	A-3	Lockheed	T-33
	McDonnell-Douglas	F-4	Lockheed	P-3
	Vought	F-8	Lockheed	P-2V
	Vought	A-7	Grumman	S-2
	North American	T-2	Grumman	A-6

*Plus 60 acres of warehouse and storage in Tucson, Arizona.

OUR COMPANY

The administrative, technical and production personnel of our company have been continuously engaged in the manufacture, supply and servicing of aircraft parts and equipment since 1950.

The production facilities of our organization are principally designed, equipped, tooled and staffed to produce support spares for out of production aircraft.

We are an approved contractor to the following organizations:

Douglas Aircraft Co. • Lockheed California Co. • Lockheed Aircraft Service Co. • Grumman Aerospace Corp. • Vought Corporation • U.S. Air Force • U.S. Navy • U.S. Army Aviation Command • U.S. Coast Guard • N.A.T.O., N.A.M.S.A. Procurement Centers • Foreign Government Military Missions, Washington, D.C.

Our wholly owned subsidiary, CONSOLIDATED AERO-EXPORT CORP., is exclusively structured to process all phases of direct export sales; i.e., export licensing, air and sea, freight shipping, foreign credits and banking.

Within our manufacturing and service division we maintain:

- I. U.S. Government approved quality control system in conformity with MIL-I-45208A.

- II. U.S. Government inspection services —Defense Contracts Administration Services.
- III. Federal Aviation Agency (FAA) licensed repair and overhaul facility—Air Agency Certificate No. 417-11.
- IV. Complete U.S.A.F. and U.S.N. technical orders—supply data tapes.
- V. U.S. Department of State Munitions Control Reg. No. 1084-1349.
- VI. Complete drawings and specifications applicable to prime manufacturers' products.
- VII. Approved parts preservation, packing and packaging services.
- VIII. 80,000 square foot Class "A" building containing the following shops: Sheet-metal fabrication and assembly • Hydraulics landing gear and accessory overhaul • Assembly and testing • Machine shop • Painting and finishing.
- IX. Approved cost accounting systems and procedures.
- X. Manufacture Douglas Model D-704 inflight refueling system.
