

UNITED AERONAUTICAL CORP.

(“UAC”)

Scope of Services

GENERAL INFO:

- UAC has been an active aerospace supplier and manufacturer for over 64 Years, supplying parts and services to countries and organizations worldwide.
- We maintain a variety of shops, including full hydraulic, electromechanical, electrical, landing gear, sheet metal paint, and other overhaul facilities on site
- A painting room with the latest approved environment filtration system for Polyurethane, Epoxy, and Teflon painting is on site and is used for the expediting of parts deliveries
- Conform and Certified by the following Quality Control systems; AS9100, and FAA Approved
- A Northrop Grumman only licensee for the C1, S2, and E1 Aircraft.
- A Hamilton Standard Licensee on a variety of components
- A Honeywell Licensee for various wheel and landing gear components.
- Maintain a computer controlled inventory, consisting of over 500,000 line items, in multiple states.
- 200,000 square feet of production and storage facilities
- Over 50 acres in our Tucson facility, with apx. 150 aircraft
- Complete technical and data libraries on site for parts and tooling, owning apx. 20,000,000 drawings, specifications, engineering orders, and service bulletins on multiple aircraft for manufacturing, maintenance, repair and overhaul
- Registered with the US Dept of State, and US Department of Commerce for export
- Individual Blanket and Export License expertise
- Maintain a complete Technical Order (T.O.) Library, encompassing multiple aircraft and systems
- Possess a variety of tooling required for manufacturing for different aircraft models
- Established Business relationships with various forging and forming companies on larger structural items

MANUFACTURING CAPABILITIES:

- Compound forming using steel, kirksite or epoxy forming dies
- Hydraulic press forming
- Rubber press forming
- 8ft and 12ft metal bending brakes
- Lathes, mills and drill presses
- In-House CNC machining capabilities
- 4ft and 12ft metal shears up to 3/8 thick cutting
- Heli-arc welding of steel, stainless and aluminum
- Amada Notcher and Radius Punch
- In house manufacturing of stamping and cutter dyes
- Manufacturer of Bushings, tubing, line fold, etc. on site.
- Cable Assembly manufacturing on site.

OVERHAUL CAPABILITIES:

- Maintain instruments & equipment required for the functional testing of a variety of parts.
- Overhaul capabilities breaks into 3 areas: a) sheet metal, b) hydraulic, and c) mechanical
- All instruments calibrated in accordance with ANSI/NCSL z540, ISO 9002 & MIL STD 45662A and international or consensus standards.
- In compliance with ISO/IEC 17025 and ISO 9001-2000.

Electro-Mechanical shop

- Linear and rotary actuators
- Electrical rescue hoist
- Magnetic brakes
- Fuel pumps
- Motors (both AC and DC)
- Oil and fuel slide valves (general controls, Whittaker etc.)
- Windshield wiper actuators gear boxes (42 degrees, 90 degrees, etc)
- Inspection of various gears

-
- Magnetic or Fluorescent inspection
 - Seat fan and motor
 - Linear actuators
 - Clocks
 - Fans
 - Switches
 - Thermostats
 - Turbines
 - Junction Boxes
 - Bomb Racks
 - Launchers
 - Receivers
 - Transmitters
 - Starters
 - Landing Gear Controls
 - Refrigeration Units
 - Bungees

Hydraulic shop:

TESTING EQUIPMENT CAPABILITIES:

- Hydraulic test stand up to 10,000 PSI, Flow up to 25GPM.
- Pneumatic test stand up to 6000 PSI.
- Force stand up to 140,000 lbs push/pull.

OVERHAUL CAPABILITIES:

- Main landing gear brakes
- Main landing gear struts
- Tail landing gear strut
- Main landing gear wheels
- Tail wheels
- Nose landing gear strut
- Nose wheels
- Tail shock strut assy
- Ramp up locks actuators
- Ramp valve assy
- Solenoid valves
- Rotor brake
- Bleed air manifold
- Check valves and restrictors
- Selector valves
- Hydraulic return manifolds
- Relief valves
- Main and nose drag braces
- Main landing gear emergency blow down bottle and valve.
- Accumulators

-
- Hydraulic hand pumps
 - Hydraulic start valves
 - Flow regulators
 - Inline filters
 - Ramp selector valve
 - APU start valve
 - Ramp sequence valve ramp actuator
 - Ramp door actuator
 - Windshield washer (pump, motor & reservoir)
 - Main gearbox, engine, and hydraulic heat exchangers
 - Auxiliary oil tank assy
 - Control rods
 - Bell cranks
 - Idlers
 - Reservoirs
 - Cylinders
 - Servo-valves

Sheet Metal

Overhaul capabilities:

- 
- Ailerons
 - Elevators
 - Slats
 - Control surfaces
 - Flaps
 - Rudders
 - Pilots and co-pilots windows
 - Personnel doors
 - Emergency escape windows
 - Nose door assy
 - Cargo hook door and latch
 - Nose door
 - Electronics compartment door (LH & RH)
 - Canopies
 - Cabin windows
 - Cabin entry doors, escape hatches, and access doors
 - Landing gear doors, torpedo and bomb bay doors
 - Pilot, co-pilot and cabin windows
 - Torque tubes
 - Ducts
 - Canopies
 - Cockpit seats (pilot & co-pilot)
 - Cabin seats

Aircraft Supported:

- Within over 200,000 square feet of warehouses and manufacturing facilities, UAC supports/ maintains spare parts, overhaul service, technical data, and manufacturing capabilities applicable to the following Civil and Military aircraft and equipment:

A-4 Skyhawk
A-7 Corsair
A-10 Thunderbolt II
A/C-47 Skytrain (DC-3)
A-37 Dragonfly
AV-8 Harrier
Beechcraft
B-52 Stratofortress
C-1 Trader
C-2 Greyhound
C-5 Galaxy
C-130/L100 Hercules
C-135 Stratotanker
E-1 Tracer
E-2 Hawkeye
E-3 Sentry
EA-6B Prowler
Fairchild/M7
F-4 Phantom
F-5 Tiger
F-15 Eagle
F-16 Fighting Falcon
F/A-18 Hornet
P-3 Orion
S-2 Tracker
T-2 Buckeye
T-34 Mentor
T-37 Tweet
T-38 Talon
Bell Helicopters (204, 205, 206, 212, 412, H1)
Boeing Helicopters
Sikorsky Helicopters (H3, H53, H60, S70, S76, S92)
Kaman Helicopters (H2)
Leonardo (Augusta) (A109, A119, A139, A159, A169)
Engines: J52, J79, J69, J85, F100, T56, T53,
Allison 250, various PT6 models, R1820, JT8D,
CFM56
.....and many many more....

REGISTRANT [REDACTED]
EXPIRATION DATE: 2025-10-31

Reference: DDTC Manufacturer Registration Statement and Fee Submission

Dear BRADFORD BECK:

The Office of Defense Trade Controls Compliance (DTCC) received your registration statement and fee to register as a manufacturer. Your registration code is [REDACTED], which expires on 2025-10-31.

Any person who engages in the United States in the business of manufacturing or exporting or temporarily importing defense articles or furnishing defense services is required to register and keep that registration current with this office pursuant to the Arms Export Control Act (AECA) and the International Traffic in Arms Regulations (ITAR). A registration is current if the registration is unexpired and has accurate and up-to-date information.

Registration is a precondition to submitting an application for an export license or other approval from the Directorate of Defense Trade Controls (DDTC) or to use ITAR exemptions but does not confer any export rights or privileges. In addition, if you also plan to engage in brokering activities pursuant to ITAR Part 129, you must register as a broker with DDTC.

As the senior officer empowered to sign the registration statement, you should ensure that your organization maintains records regarding: 1) The senior officer listed on the registration who will oversee the compliance program and be responsible for designating the direct employees who will serve as “empowered officials” for their organization; and 2) The qualified, direct employees who will serve as “empowered officials,” listed by name, position, business unit, phone and fax numbers and email addresses. Please note that third parties (i.e., individuals who are not direct employees, such as consultants, subcontractors, or outside counsel, for example) cannot serve as “empowered officials.”

Also, ITAR Section 122.5 requires you to maintain records concerning your registration and the manufacture, acquisition, and disposition of defense articles; the provision of defense services; and information on political contributions, fees, or commissions furnished or obtained, as required by ITAR Part 130. Records maintained shall be available at all times for inspection and copying by DTCC or Customs officials. To ensure such records are maintained in accordance with ITAR Section 122.5, the organization should provide appropriate training on AECA and ITAR requirements to all employees who will be performing recordkeeping functions and ensure they comply with the ITAR. Ramifications for the failure to comply may include shipment delay and/or shipment seizure by Customs and Border Protection, loss of export privileges, and/or criminal or civil penalties.

Further, if your organization has foreign-person employees, including officers and senior managers,

your organization must first obtain a license or other approval before providing such foreign-person employees with access to any ITAR-controlled technical data. It is also prohibited to provide defense services or export defense articles to subsidiaries/affiliates located in proscribed countries under ITAR Section 126.1 (for example, the People's Republic of China, North Korea, Syria, etc.). You should caution your organization's employees not to discuss the substance of ITAR-controlled information with foreign-person employees without first obtaining a license or other approval from DDTC.

You may refer to the DDTC website for a Compliance Guide at <http://www.pmddtc.state.gov/> and then click on ITAR Compliance tab, next click on How to Comply tab. The DDTC website also includes a copy of the ITAR, explanations of export licensing procedures, how to submit a license application, country sanctions, individuals / companies debarred by the Department of State, and other export matters. The website also includes procedures for requesting a commodity jurisdiction determination (ITAR Section 120.4) should you have doubt as to whether an article, services, or data is covered by the ITAR Part 121 (the U.S. Munitions List).

You may submit your organization's registration renewal up to 60 days before the registration expiration date. At latest, your registration must be received at least 30 days prior to the expiration date to avoid a lapse in registration. You should also ensure your organization's Registration is current before applying for export licenses or other approvals. Also, if appropriate, DTCC requests you to keep your registration information current by submitting amendment requests via DECCS Registration system.

For general registration related questions, please contact the DDTC Response Team at 202-663-1282 or by email at DDTCCustomerService@state.gov. For questions related to this matter, please contact Sharon Devonish at 202-663-2785.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Cook". The signature is fluid and cursive, with the first name "Daniel" and last name "Cook" clearly distinguishable.

Van Nuys FSDO, Western-Pacific Region

This Certificate is not Transferable, AND ANY MAJOR CHANGE IN THE BASIC FACILITIES, OR IN THE LOCATION THEREOF,
SHALL BE IMMEDIATELY REPORTED TO THE APPROPRIATE REGIONAL OFFICE OF THE FEDERAL AVIATION ADMINISTRATION

Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both

Lawrence Holt - Ceo
UNITED AERONAUTICAL CORPORATION
7360 LAUREL CANYON BLVD,
North Hollywood, CA, 91605-3710

Dear Lawrence Holt:

Congratulations! . . . Welcome to the HUBZone Program!

I am pleased to advise you that effective this date, UNITED AERONAUTICAL CORPORATION has been approved for certification as a "qualified HUBZone small business concern (SBC)". The firm is now eligible for HUBZone opportunities and will be included on the list of qualified HUBZone small business concerns found at http://dsbs.sba.gov/dsbs/search/dsp_searchhubzone.cfm. This certification will remain in effect unless SBA later determines that the firm does not meet the eligibility requirements of the program or the firm submits a [voluntary decertification form](#). The information below sets forth facts concerning the company's continued eligibility and its responsibilities.

The Firm's Responsibilities as a HUBZone certified concern

As a HUBZone certified concern, the program benefits the firm may receive come with important responsibilities, including:

- Keeping up-to-date on the HUBZone geographical designations by visiting the HUBZone website at <http://www.sba.gov/content/hubzone-maps>.

Check SBA's HUBZone mapping pages to determine whether changes in HUBZone area designations impact, or will impact, the firm's eligibility. Note that changes in geographical designations may critically affect the firm's compliance with Program requirements that its principal office be located in a HUBZone, and/or that at least 35% of its employees reside in a HUBZone.

Sign up to receive HUBZone News Updates by entering your email address at <https://public.govdelivery.com/accounts/USSBA/subscriber/new>. Once there, expand the "SBA Initiatives" subscription topic, select HUBZone News, and click "Next." This is the simplest single step you can take to keep current on key program changes that may affect the firm's eligibility.

- Remaining in compliance at all times and staying updated on Program changes. It is the firm's responsibility to continually ensure that it meets the requirements of the Program. This includes, for example, continuously meeting the 35% HUBZone residency requirement. The firm can make good faith efforts to "attempt to maintain" (see definition at [13 C.F.R. § 126.103](#)) having 35% of its employees reside in a HUBZone during the performance of a HUBZone contract it received (as a prime, not as a subcontractor). But, the business must meet this residency requirement anytime it submits an offer on and receives a new HUBZone contract. This also includes complying with contract performance requirements in connection with any HUBZone contracts awarded to the firm as a qualified HUBZone SBC (e.g., the subcontracting limitations requirements set forth in [13 C.F.R. § 126.700](#), and/or the non-manufacturer rule set forth in [13 C.F.R. § 126.601\(e\)](#)).
- Informing the HUBZone Program of any material changes to the concern. If there are material changes to the concern that may affect its continued eligibility, you must notify the HUBZone Program by sending an e-mail to HZMCN@sba.gov. Material changes include a change in name, size, ownership, business structure, or principal office location, in addition to falling below the 35% employee HUBZone residency requirement when the firm is not performing on a HUBZone contract. Failure to notify the HUBZone Program of material changes may result in decertification from the program. If at any time the concern no longer qualifies for the HUBZone Program, the individual authorized to represent the firm can complete the "Voluntary Decertification Agreement" available at <http://www.sba.gov/content/maintaining-hubzone-certification>.

Note: The HUBZone Program sends notices regarding program examinations, proposed decertifications, and re-certifications to the firm's physical and email addresses of record. If the firm fails to respond to these notices because the firm relocated without updating its SAM and DSBS profiles and informing the HUBZone Program, SBA will propose the firm for decertification and may subsequently decertify it from the Program. Therefore, it is critical that you check your email's SPAM folder to make sure that you are receiving emails from SBA, notify us of any change in the physical address and keep the firm's SAM and DSBS profiles current.

- Participating in SBA eligibility monitoring initiatives. In order to ensure the integrity of the Program, firms will be required to recertify their status and may be subject to program examinations, proposed decertifications, or protests designed to verify eligibility, including:
 - SBA requiring the concern to certify in writing under penalty of perjury that it continues to meet all the eligibility criteria of the HUBZone Program or voluntarily decertify
 - SBA requiring the concern to submit updated documentation, similar to the information and documents you provided for the firm to obtain initial certification, in order to verify that it remains eligible for the program.
 - SBA requiring the concern to demonstrate that it was eligible for the Program both at the time of its initial offer and award of a HUBZone contract.
 - SBA making unannounced site visits to any or all of the concern's locations to verify the accuracy of any information provided to SBA.
- Keeping the firm's System for Award Management (SAM) and Dynamic Small Business Search (DSBS) records up-to-date. To apply for HUBZone Program certification, the firm had to be registered in SAM and DSBS. For the firm to receive benefits from the HUBZone Program (i.e., to be identified by contracting officers as eligible to receive HUBZone contracts and to be paid under any such contracts), these records must remain up-to-date. You must validate the firm's information at least annually or its SAM registration will become inactive. If you need assistance in updating the firm's SAM or DSBS information, please go to the SAM Help Desk at <https://fsd.gov/fsd-gov/home.do>.
- **Misrepresentation:** By bidding on any Federal solicitation that is set-aside or reserved only for HUBZone SBCs or for which a HUBZone preference will be applied, the firm's submission of that offer is deemed to be a representation to the United States that the company is fully in compliance with the HUBZone regulatory requirements, and that there have been no material changes since it received the HUBZone certification. ANY SBC FOUND TO MISREPRESENT ITS HUBZONE STATUS IN OBTAINING SUCH AN AWARD MAY BE SUBJECT TO A RANGE OF CIVIL OR CRIMINAL PENALTIES, TREBLE DAMAGES UNDER THE FALSE CLAIMS ACT, AND/OR SUSPENSION OR DEBARMENT FROM FEDERAL CONTRACTING.

How to get the most out of the Program

Although the firm's status as a certified HUBZone SBC greatly improves its access to Federal awards, this certification does not guarantee contract awards. Your ability to research opportunities and competitively bid on them will be the key to your success in this program. I recommend you utilize the following additional web resources designed to help you maximize the Program's benefits:

- SBA's Government Contracting Classroom website at (<http://www.sba.gov/gcclassroom>) provides valuable information on Federal contracting. Please note that while your concern was approved under the primary North American Industry Classification System (NAICS) Code found in your firm's SAM and DSBS profiles, you may be awarded contracts under other NAICS Codes. You may benefit from researching and identifying potential HUBZone contracting opportunities outside your profile's NAICS code.
- Federal Business Opportunities (<https://www.fbo.gov/>) serves as a central listing for Federal procurement solicitations to the public. The [Federal Procurement Data System](#) is a database accessible to the public at no cost and you may use it to learn about contract awards to businesses in various socioeconomic categories, including HUBZone.
- www.USAspending.gov is a single searchable website, accessible to the public at no cost, which includes for each Federal award: the name of the entity receiving the award; the amount of the award; information on the award including transaction type, funding agency, etc.; and the location of the entity receiving the award.

- o SBA's Surety Bond Guarantee program (SBG) website (www.sba.gov/osg) provides information on how to apply for an SBA surety bond guarantee and a listing of participating sureties and agents. For immediate questions, please call 202-205-6540. The SBG program guarantees bid, performance and payment bonds for individual private or public contracts up to \$6.5 million, and up to \$10 million with a federal contracting officer's certification that the bond guarantee is necessary, for small and emerging contractors having difficulties obtaining surety bonds through regular commercial channels.

Thank you for contributing to US economic development

We wish you the best of luck as a HUBZone certified concern - your success will help improve the economic future of the HUBZone(s) in which the firm operates. If at any time you have any questions about the Program or how the SBA may be able to support your business objectives, the HUBZone Office offers assistance via an interactive conference call where we can respond to general questions and concerns in real-time. Visit our website at <http://www.sba.gov/hubzone>, for additional information or contact the HUBZone Help Desk at HUBZone@sba.gov

Sincerely,

Mariana Pardo

Subject: Rolls-Royce M250 Series Gas Turbine Engine & Honeywell Accessory Support Services

Dear Diana:

This letter confirms Keystone Turbine Services (KTS) has partnered with United Aeronautical Corporation (UAC) regarding their desire to support Rolls-Royce M250 series gas turbine engine and Honeywell series accessory maintenance, repair and overhaul services in support of their various customers.

KTS is certificated by (1) Rolls-Royce M250 Authorized Maintenance, Repair and Overhaul Center (AMROC), (2) Honeywell Authorized Warranty and Repair Station (AWARS) and (3) FAA Part 145 approved Repair Station (8MHR895B). We have the facilities, tooling, equipment, expertise and over 38 years of experience to meet all of their unique customer requirements. KTS stands ready to receive any related Rolls-Royce and/or Honeywell products supplied by UAC for servicing here at our Coatesville, PA (USA) facility.

In closing, UAC has an outstanding reputation of supporting their customers and we're proud to be an integral partner in their endeavors. Please feel free to contact me should you desire additional information or wish to schedule an immediate support requirement.

Best regards,

Date

MAR 25 1992

Plan Identification No. E-WP-00007-U
[D-WP-099]

Mr. Larry E. Bartroff
United Aeronautical Corporation
7360 Laurel Canyon Boulevard
North Hollywood, California 91605

Dear Mr. Bartroff:

This is to inform you that your enclosed anti-drug plan has been approved by the Federal Aviation Administration (FAA). Under the terms of this approval, you are authorized to begin testing covered employees immediately.

This approval is contingent on your continuing association with the AMS Employee Drug Testing Consortium as specified in your plan. Should you terminate or modify the terms of your consortium membership, you must notify the FAA and submit an alternative plan for meeting the requirements of the anti-drug regulations. The identification number shown at the top of this letter should be referenced in correspondence to this office regarding your program.

Federal Aviation Regulations (FAR) Part 121 Appendix I requires submission of semiannual and annual reports to the FAA. Your initial report should be submitted by August 15, 1992, and should cover the period from initial implementation through June 30, 1992. A sample reporting format is enclosed for preparing the reports. Reports may be submitted directly to FAA by you or through your approved consortium, depending on the terms of your membership.

Sincerely,

//L

William R. McAndrew
Manager, Drug Abatement Branch
Office of Aviation Medicine

User/Installer Responsibilities							
It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
