
UNITED AERONAUTICAL CORP. ("UAC") *Escopo dos Serviços*

INFORMAÇÕES GERAIS:

- A UAC fabrica e fornece material aeronáutico há mais de 50 anos.
- Presta assistência completa em instalações hidráulicas, eletromecânicas, trens de pouso e peças estruturais na oficina.
- Possui capacidades de fabricação interna, incluindo chapa metálica e oficinas de máquinas.
- A nossa oficina de pintura conta com um sistema de filtragem e protecção do ambiente recentemente aprovado para tintas à base de poliuretano, epoxy, e teflon.
- Sistemas de controle de qualidade: com aprovação AS9001, e FAA.
- Possui uma Licença Northrop Grumman.
- Possui uma Licença Hamilton Standard.
- Possui mais de 500.000 referências em inventário.
- Tem uma área de produção e de instalações de armazenamento de 14.000 metros quadrados.
- Mais de 4.000 m² das nossas instalações em Tucson, com cerca de 150 aeronaves.
- Bibliotecas técnicas e de dados completas.
- Empresa registada no Departamento de Estado dos EUA.
- Especialização em Coberturas Individuais e Licenças de Exportação.
- Detém cerca de 600.000 desenhos de diversas aeronaves para fabricação, incluindo ferramentas.
- Mantém uma Biblioteca de Encomendas Técnicas (T.O.) completa, que inclui diversas aeronaves.
- Possui ferramentas necessárias para fabricação de uma grande variedade de peças de diversas aeronaves.
- Tem relações comerciais estabelecidas com diversas empresas de forjagem e moldagem de grandes peças estruturais.

CAPACIDADES DE FABRICAÇÃO:

- Moldagem composta com utilização de matrizes de aço, de ligas de zinco e alumínio (kirksite) ou epoxi.
- Conformação em prensa hidráulica.
- Conformação em prensa de borracha.
- Travamentos para encurvamento de estruturas de 3 e 4 metros.
- Tornos, trens de laminagem e prensas de furação.
- Capacidades internas de usinagem assistida por computador (CNC).
- Tesouras metálicas de 1 e 3 metros para corte até uma espessura de 3/8.
- Solda em arco de aço, aço inox e alumínio.
- Blocos de apoio Amanda e punção radial.
- Fabricação interno de matrizes de estampagem e corte.
- Fabricação de casquilhos, tubagens, cotovelos, etc. na oficina.
- Fabricação e montagem de cablagens na oficina.

CAPACIDADE DE REVISÃO:

- Revisão e assistência aos instrumentos e equipamentos necessários para os testes funcionais de uma grande variedade de equipamentos.
- A capacidade de manutenção divide-se em 3 áreas: a) estrutura, b) hidráulica, e c) mecânica.
- Todos os instrumentos são calibrados em conformidade com as normas ANSI/NCSL z540, ISO 9002 & MIL STD 45662A e outras normas internacionais.
- Em conformidade com as normas ISO/IEC 17025 e ISO 9001-2000.

Oficina Eletromecânica

- Atuadores lineares e rotativos
- Guindaste eléctrico de salvamento
- Freios magnéticos
- Bombas de combustível
- Motores (tanto de c.a. como de c.c.)
- Válvulas lançadeiras de óleo e combustível (controles gerais, Whittaker, etc.)
- Caixas de engrenagens de atuadores de limpadores de pára-brisas (42 graus, 90 graus, etc.)
- Inspeção de diversas engrenagens

-
- Inspeção por partícula magnética
 - Revisão do assento e seus acessórios
 - Atuadores lineares
 - Relógios
 - Ventiladores
 - Interruptores
 - Termostatos
 - Turbinas
 - Caixas de junções
 - Rack de bombas
 - Lançadores
 - Receptores
 - Transmissores
 - Disparadores
 - Controles do trem de pouso
 - Unidades de refrigeração
 - Transmissores
 - Amortecedores

OFICINA HIDRÁULICA:

DISPONIBILIDADE DOS EQUIPAMENTOS DE ENSAIO:

- Ensaio hidráulico de partida até 10.000 PSI, Fluxo até 25GPM.
- Ensaio pneumático de partida até 6000 PSI.
- Força de partida até 140.000 lbs puxa/empurra.

DISPONIBILIDADE PARA REVISAR OS SEGUINTE COMPONENTES:

- Freios do trem de pouso principal
- Estruturas do trem de pouso principal
- Estrutura do trem de pouso da cauda
- Rodas do trem de pouso principal
- Rodas da cauda
- Estrutura do trem de pouso do nariz
- Rodas do nariz
- Montagem da estrutura de choque da cauda
- Atuadores dos bloqueadores de rampa
- Montagem da válvula de rampa
- Válvulas solenóide
- Freios do rotor de cauda
- Distribuidor de ar purgado
- Válvulas de verificação e válvulas redutoras
- Válvulas do selector
- Distribuidores hidráulicos de retorno
- Válvulas de alívio de pressão
- Braçadeiras do reforço principal e do nariz

-
- Ampola e válvula de descarga de emergência do trem de pouso principal
 - Acumuladores
 - Bombas hidráulicas manuais
 - Válvulas hidráulicas do partida
 - Reguladores de fluxo
 - Filtros em linha
 - Válvula selectora de rampa
 - Válvula de partida APU
 - Actuador de rampa da válvula de sequência de rampa
 - Actuador da porta de rampa
 - Lavador do pára-brisas (bomba, motor & reservatório)
 - Caixa de engrenagens principal, motor e trocadores de calor do sistema hidráulico
 - Revisão do reservatório de óleo auxiliar
 - Bielas de controle
 - Guinchois
 - Eixos livres
 - Reservatórios
 - Cilindros
 - Servo-válvulas

Estrutura - Disponibilidade para revisão:

- 
- Ailerons
 - Elevadores
 - Aletas
 - Superfícies de controle
 - Flaps
 - Lemes
 - Janelas dos pilotos e co-pilotos
 - Porta pax
 - Janelas de saída de emergência
 - Montagem da porta do nariz
 - Sistema de travamento da porta do cargo
 - Porta do nariz
 - Porta do compartimento de eletrônica (LH & RH)
 - Canopi
 - Janelas da cabine do piloto e co-piloto
 - Portas de entrada da cabine, porta de emergência, e portas de acesso
 - Portas do trem de pouso
 - Portas dos lançadores de torpedo e das bombas
 - Janelas da cabine do piloto e co-piloto
 - Tubos de torque
 - Tubulação

- Assentos da cabine pax

Avião suportado:

- Dentro de mais de 200.000 pés quadrados de armazém e instalações de fabricação, UAC suporta / mantém peças sobressalentes, serviço de revisão, dados técnicos e capacidades de fabricação para ensaios de aeronaves e equipamentos civis e militares: A-4 Skyhawk

A-7 Corsair
A-10 Thunderbolt II
A/C-47 Skytrain (DC-3)
A-37 Dragonfly
AV-8 Harrier
Beachcraft

REGISTRANT [REDACTED]
EXPIRATION DATE: 2025-10-31

Reference: DDTC Manufacturer Registration Statement and Fee Submission

Dear BRADFORD BECK:

The Office of Defense Trade Controls Compliance (DTCC) received your registration statement and fee to register as a manufacturer. Your registration code is [REDACTED], which expires on 2025-10-31.

Any person who engages in the United States in the business of manufacturing or exporting or temporarily importing defense articles or furnishing defense services is required to register and keep that registration current with this office pursuant to the Arms Export Control Act (AECA) and the International Traffic in Arms Regulations (ITAR). A registration is current if the registration is unexpired and has accurate and up-to-date information.

Registration is a precondition to submitting an application for an export license or other approval from the Directorate of Defense Trade Controls (DDTC) or to use ITAR exemptions but does not confer any export rights or privileges. In addition, if you also plan to engage in brokering activities pursuant to ITAR Part 129, you must register as a broker with DDTC.

As the senior officer empowered to sign the registration statement, you should ensure that your organization maintains records regarding: 1) The senior officer listed on the registration who will oversee the compliance program and be responsible for designating the direct employees who will serve as “empowered officials” for their organization; and 2) The qualified, direct employees who will serve as “empowered officials,” listed by name, position, business unit, phone and fax numbers and email addresses. Please note that third parties (i.e., individuals who are not direct employees, such as consultants, subcontractors, or outside counsel, for example) cannot serve as “empowered officials.”

Also, ITAR Section 122.5 requires you to maintain records concerning your registration and the manufacture, acquisition, and disposition of defense articles; the provision of defense services; and information on political contributions, fees, or commissions furnished or obtained, as required by ITAR Part 130. Records maintained shall be available at all times for inspection and copying by DTCC or Customs officials. To ensure such records are maintained in accordance with ITAR Section 122.5, the organization should provide appropriate training on AECA and ITAR requirements to all employees who will be performing recordkeeping functions and ensure they comply with the ITAR. Ramifications for the failure to comply may include shipment delay and/or shipment seizure by Customs and Border Protection, loss of export privileges, and/or criminal or civil penalties.

Further, if your organization has foreign-person employees, including officers and senior managers,

your organization must first obtain a license or other approval before providing such foreign-person employees with access to any ITAR-controlled technical data. It is also prohibited to provide defense services or export defense articles to subsidiaries/affiliates located in proscribed countries under ITAR Section 126.1 (for example, the People's Republic of China, North Korea, Syria, etc.). You should caution your organization's employees not to discuss the substance of ITAR-controlled information with foreign-person employees without first obtaining a license or other approval from DDTC.

You may refer to the DDTC website for a Compliance Guide at <http://www.pmddtc.state.gov/> and then click on ITAR Compliance tab, next click on How to Comply tab. The DDTC website also includes a copy of the ITAR, explanations of export licensing procedures, how to submit a license application, country sanctions, individuals / companies debarred by the Department of State, and other export matters. The website also includes procedures for requesting a commodity jurisdiction determination (ITAR Section 120.4) should you have doubt as to whether an article, services, or data is covered by the ITAR Part 121 (the U.S. Munitions List).

You may submit your organization's registration renewal up to 60 days before the registration expiration date. At latest, your registration must be received at least 30 days prior to the expiration date to avoid a lapse in registration. You should also ensure your organization's Registration is current before applying for export licenses or other approvals. Also, if appropriate, DTCC requests you to keep your registration information current by submitting amendment requests via DECCS Registration system.

For general registration related questions, please contact the DDTC Response Team at 202-663-1282 or by email at DDTCCustomerService@state.gov. For questions related to this matter, please contact Sharon Devonish at 202-663-2785.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Cook". The signature is fluid and cursive, with the first name "Daniel" and the last name "Cook" clearly distinguishable.

Lawrence Holt - Ceo
UNITED AERONAUTICAL CORPORATION
7360 LAUREL CANYON BLVD,
North Hollywood, CA, 91605-3710

Dear Lawrence Holt:

Congratulations! . . . Welcome to the HUBZone Program!

I am pleased to advise you that effective this date, UNITED AERONAUTICAL CORPORATION has been approved for certification as a "qualified HUBZone small business concern (SBC)". The firm is now eligible for HUBZone opportunities and will be included on the list of qualified HUBZone small business concerns found at http://dsbs.sba.gov/dsbs/search/dsp_searchhubzone.cfm. This certification will remain in effect unless SBA later determines that the firm does not meet the eligibility requirements of the program or the firm submits a [voluntary decertification form](#). The information below sets forth facts concerning the company's continued eligibility and its responsibilities.

The Firm's Responsibilities as a HUBZone certified concern

As a HUBZone certified concern, the program benefits the firm may receive come with important responsibilities, including:

- Keeping up-to-date on the HUBZone geographical designations by visiting the HUBZone website at <http://www.sba.gov/content/hubzone-maps>.

Check SBA's HUBZone mapping pages to determine whether changes in HUBZone area designations impact, or will impact, the firm's eligibility. Note that changes in geographical designations may critically affect the firm's compliance with Program requirements that its principal office be located in a HUBZone, and/or that at least 35% of its employees reside in a HUBZone.

Sign up to receive HUBZone News Updates by entering your email address at <https://public.govdelivery.com/accounts/USSBA/subscriber/new>. Once there, expand the "SBA Initiatives" subscription topic, select HUBZone News, and click "Next." This is the simplest single step you can take to keep current on key program changes that may affect the firm's eligibility.

- Remaining in compliance at all times and staying updated on Program changes. It is the firm's responsibility to continually ensure that it meets the requirements of the Program. This includes, for example, continuously meeting the 35% HUBZone residency requirement. The firm can make good faith efforts to "attempt to maintain" (see definition at [13 C.F.R. § 126.103](#)) having 35% of its employees reside in a HUBZone during the performance of a HUBZone contract it received (as a prime, not as a subcontractor). But, the business must meet this residency requirement anytime it submits an offer on and receives a new HUBZone contract. This also includes complying with contract performance requirements in connection with any HUBZone contracts awarded to the firm as a qualified HUBZone SBC (e.g., the subcontracting limitations requirements set forth in [13 C.F.R. § 126.700](#), and/or the non-manufacturer rule set forth in [13 C.F.R. § 126.601\(e\)](#)).
- Informing the HUBZone Program of any material changes to the concern. If there are material changes to the concern that may affect its continued eligibility, you must notify the HUBZone Program by sending an e-mail to HZMCN@sba.gov. Material changes include a change in name, size, ownership, business structure, or principal office location, in addition to falling below the 35% employee HUBZone residency requirement when the firm is not performing on a HUBZone contract. Failure to notify the HUBZone Program of material changes may result in decertification from the program. If at any time the concern no longer qualifies for the HUBZone Program, the individual authorized to represent the firm can complete the "Voluntary Decertification Agreement" available at <http://www.sba.gov/content/maintaining-hubzone-certification>.

Note: The HUBZone Program sends notices regarding program examinations, proposed decertifications, and re-certifications to the firm's physical and email addresses of record. If the firm fails to respond to these notices because the firm relocated without updating its SAM and DSBS profiles and informing the HUBZone Program, SBA will propose the firm for decertification and may subsequently decertify it from the Program. Therefore, it is critical that you check your email's SPAM folder to make sure that you are receiving emails from SBA, notify us of any change in the physical address and keep the firm's SAM and DSBS profiles current.

- Participating in SBA eligibility monitoring initiatives. In order to ensure the integrity of the Program, firms will be required to recertify their status and may be subject to program examinations, proposed decertifications, or protests designed to verify eligibility, including:
 - SBA requiring the concern to certify in writing under penalty of perjury that it continues to meet all the eligibility criteria of the HUBZone Program or voluntarily decertify
 - SBA requiring the concern to submit updated documentation, similar to the information and documents you provided for the firm to obtain initial certification, in order to verify that it remains eligible for the program.
 - SBA requiring the concern to demonstrate that it was eligible for the Program both at the time of its initial offer and award of a HUBZone contract.
 - SBA making unannounced site visits to any or all of the concern's locations to verify the accuracy of any information provided to SBA.
- Keeping the firm's System for Award Management (SAM) and Dynamic Small Business Search (DSBS) records up-to-date. To apply for HUBZone Program certification, the firm had to be registered in SAM and DSBS. For the firm to receive benefits from the HUBZone Program (i.e., to be identified by contracting officers as eligible to receive HUBZone contracts and to be paid under any such contracts), these records must remain up-to-date. You must validate the firm's information at least annually or its SAM registration will become inactive. If you need assistance in updating the firm's SAM or DSBS information, please go to the SAM Help Desk at <https://fsd.gov/fsd-gov/home.do>.
- **Misrepresentation:** By bidding on any Federal solicitation that is set-aside or reserved only for HUBZone SBCs or for which a HUBZone preference will be applied, the firm's submission of that offer is deemed to be a representation to the United States that the company is fully in compliance with the HUBZone regulatory requirements, and that there have been no material changes since it received the HUBZone certification. ANY SBC FOUND TO MISREPRESENT ITS HUBZONE STATUS IN OBTAINING SUCH AN AWARD MAY BE SUBJECT TO A RANGE OF CIVIL OR CRIMINAL PENALTIES, TREBLE DAMAGES UNDER THE FALSE CLAIMS ACT, AND/OR SUSPENSION OR DEBARMENT FROM FEDERAL CONTRACTING.

How to get the most out of the Program

Although the firm's status as a certified HUBZone SBC greatly improves its access to Federal awards, this certification does not guarantee contract awards. Your ability to research opportunities and competitively bid on them will be the key to your success in this program. I recommend you utilize the following additional web resources designed to help you maximize the Program's benefits:

- SBA's Government Contracting Classroom website at (<http://www.sba.gov/gcclassroom>) provides valuable information on Federal contracting. Please note that while your concern was approved under the primary North American Industry Classification System (NAICS) Code found in your firm's SAM and DSBS profiles, you may be awarded contracts under other NAICS Codes. You may benefit from researching and identifying potential HUBZone contracting opportunities outside your profile's NAICS code.
- Federal Business Opportunities (<https://www.fbo.gov/>) serves as a central listing for Federal procurement solicitations to the public. The [Federal Procurement Data System](#) is a database accessible to the public at no cost and you may use it to learn about contract awards to businesses in various socioeconomic categories, including HUBZone.
- www.USAspending.gov is a single searchable website, accessible to the public at no cost, which includes for each Federal award: the name of the entity receiving the award; the amount of the award; information on the award including transaction type, funding agency, etc.; and the location of the entity receiving the award.

- o SBA's Surety Bond Guarantee program (SBG) website (www.sba.gov/osg) provides information on how to apply for an SBA surety bond guarantee and a listing of participating sureties and agents. For immediate questions, please call 202-205-6540. The SBG program guarantees bid, performance and payment bonds for individual private or public contracts up to \$6.5 million, and up to \$10 million with a federal contracting officer's certification that the bond guarantee is necessary, for small and emerging contractors having difficulties obtaining surety bonds through regular commercial channels.

Thank you for contributing to US economic development

We wish you the best of luck as a HUBZone certified concern - your success will help improve the economic future of the HUBZone(s) in which the firm operates. If at any time you have any questions about the Program or how the SBA may be able to support your business objectives, the HUBZone Office offers assistance via an interactive conference call where we can respond to general questions and concerns in real-time. Visit our website at <http://www.sba.gov/hubzone>, for additional information or contact the HUBZone Help Desk at HUBZone@sba.gov

Sincerely,

Mariana Pardo

Subject: Rolls-Royce M250 Series Gas Turbine Engine & Honeywell Accessory Support Services

Dear Diana:

This letter confirms Keystone Turbine Services (KTS) has partnered with United Aeronautical Corporation (UAC) regarding their desire to support Rolls-Royce M250 series gas turbine engine and Honeywell series accessory maintenance, repair and overhaul services in support of their various customers.

KTS is certificated by (1) Rolls-Royce M250 Authorized Maintenance, Repair and Overhaul Center (AMROC), (2) Honeywell Authorized Warranty and Repair Station (AWARS) and (3) FAA Part 145 approved Repair Station (8MHR895B). We have the facilities, tooling, equipment, expertise and over 38 years of experience to meet all of their unique customer requirements. KTS stands ready to receive any related Rolls-Royce and/or Honeywell products supplied by UAC for servicing here at our Coatesville, PA (USA) facility.

In closing, UAC has an outstanding reputation of supporting their customers and we're proud to be an integral partner in their endeavors. Please feel free to contact me should you desire additional information or wish to schedule an immediate support requirement.

Best regards,

Sales and Service Manager

Dear Bradford:

EDMO Distributors, Inc. is happy to inform you that your application for dealership has been approved. Your terms as a new dealer are Credit Card, we accept Visa, Master Card and American Express. Your account number is UNITAECA. We will be sending you our catalog, if you have not yet received one from our salesman.

If you have a question regarding your account, please do not hesitate to contact the credit department.

EDMO Distributors, Inc. is looking forward to doing business with your company.

Sincerely,

Laura Bahr
Edmo Distributors, Inc.

Quality System Approval

Date: November 5, 2001

To: United Aeronautical Corporation
7360 Laurel Canyon Blvd.
North Hollywood, CA 91605

Attention: Larry Bartroff, Quality Manager

This is to inform you that after a review of your Quality System we are pleased to report that your company has been approved and added to our Approved Supplier List.

We feel your company's Quality system is in compliance with our requirements at this time and we look forward to a productive and professional relationship with your firm and we thank you for your support.

Please be advised that this approval may be revoked at any time your company's Quality rating falls below the set guidelines.

For further information, please contact me @ (661) 824.6453

Sincerely,

Rick Escobar

MAR 25 1992

Plan Identification No. E-WP-00007-U
[D-WP-099]

Mr. Larry E. Bartroff
United Aeronautical Corporation
7360 Laurel Canyon Boulevard
North Hollywood, California 91605

Dear Mr. Bartroff:

This is to inform you that your enclosed anti-drug plan has been approved by the Federal Aviation Administration (FAA). Under the terms of this approval, you are authorized to begin testing covered employees immediately.

This approval is contingent on your continuing association with the AMS Employee Drug Testing Consortium as specified in your plan. Should you terminate or modify the terms of your consortium membership, you must notify the FAA and submit an alternative plan for meeting the requirements of the anti-drug regulations. The identification number shown at the top of this letter should be referenced in correspondence to this office regarding your program.

Federal Aviation Regulations (FAR) Part 121 Appendix I requires submission of semiannual and annual reports to the FAA. Your initial report should be submitted by August 15, 1992, and should cover the period from initial implementation through June 30, 1992. A sample reporting format is enclosed for preparing the reports. Reports may be submitted directly to FAA by you or through your approved consortium, depending on the terms of your membership.

Sincerely,

//L

William R. McAndrew
Manager, Drug Abatement Branch
Office of Aviation Medicine

User/Installer Responsibilities							
It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1. Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

ECONOMIC SITUATION VERIFICATION FOR UNITED AERONAUTICAL CORPORATION

We, the Universal City North Hollywood Chamber of Commerce,
hereby confirm that to the best of our knowledge, the following-
two articles do not apply to United Aeronautical Corporation:

_____ Those going bankrupt or are being liquidated, whose affairs
are administered by the court, who have announced for a
commission of bankruptcy, who have suspended business
activities, or who are in a similar situation under provisions of their
own national laws and regulations.

_____ Those whose bankruptcy is declared, who are the subject of
an order of compulsory liquidation, or are under court
administration due to debts to creditors, or who are in a similar
under the provisions of their own national laws and regulations.
